The Integrated Oral Health Option

Protect your health with additional dental cleanings.

Certain medical conditions can increase the risk of gum disease, which may also affect overall health. Delta Dental's **Integrated Oral Health Option** helps eligible members take a proactive approach to their oral health with access to additional preventive dental care.

Through this program, eligible members can receive up to **four dental cleanings and/or periodontal maintenance procedures** per benefit period, compared with the standard two cleanings typically covered each year.

What do I need to do next?

Complete and sign the Integrated Oral Health Option attestation form, which can be downloaded from our 'Forms' page at DeltaDentalCT.com/forms.

Once completed, please return to Delta Dental.
